

Role description: Data Protection Officer (DPO)

General information

Contract type: *SLA contract to iCT4 Limited*

Location: **An Daras Multi Academy Trust**

Reporting to: *MAT CEO*

Responsible for: *Data Protection Representatives (DPRs)*

Budget responsibilities: *None*

Purpose

The DPO is responsible for monitoring compliance with current UK data protection law, and has the knowledge, support and authority to do so effectively. They oversee the Multi Academy Trust's (MAT) data protection processes and advise on best practice.

Key responsibilities

- To advise the MAT and its employees about their obligations under current UK data protection law, including the UK General Data Protection Regulation (GDPR).
- To develop an in-depth understanding of the MAT processing operations, information systems, data security processes and needs, and administrative rules and procedures.
- To monitor the MAT compliance with UK data protection law, by:
 - collecting information to identify data processing activities;
 - analysing and checking the compliance of data processing activities;
 - informing, advising and issuing recommendations to the MAT;
 - ensuring they remain an expert in data protection issues and changes to the law, attending relevant training as appropriate.
- To ensure the MAT policies are followed, through:
 - assigning responsibilities to individuals,
 - awareness-raising activities,
 - co-ordinating staff training,
 - conducting internal data protection audits.
- To advise on and assist the MAT with carrying out data protection impact assessments, if necessary.
- To act as a contact point for the Information Commissioner's Office (ICO), assisting and consulting it where necessary, including:
 - helping the ICO to access documents and information,
 - seeking advice on data protection issues.
- To support the DPR as a contact point for the DPR dealing with individuals whose data is processed (for example, staff, pupils and parents), including:
 - DPO responding to subject access requests,
 - supporting the DPR in responding to other requests regarding individuals' rights over their data and how it is used.

- To take a risk-based approach to data protection, including:
 - prioritising the higher-risk areas of data protection and focusing mostly on these;
 - advising the MAT if/when it should conduct an audit, which areas staff need training in, and what the DPO role should involve.
- To report to the board of trustees on the MAT data protection compliance and associated risks.
- To respect and uphold confidentiality, as appropriate and in line with UK data protection law, in carrying out all duties of the role.
- To undertake any additional tasks necessary to keep the MAT compliant with UK data protection law and be successful in the role.
- To take responsibility for fostering a culture of data protection throughout the MAT.
- To work closely with other departments and services, such as HR, legal, IT and security, to ensure UK GDPR compliance.

Person specification

Criteria	Desirable qualities
Qualifications	• Background in information security, data protection or IT desired • Educated to degree level, or equivalent professional experience • Relevant data protection qualification desired
Experience	• Professional experience of UK data protection law • Experience of managing data protection compliance, particularly responding to subject access requests
